

Mark was recommended to me by family members when I purchase a house here in Penticton. I was grateful to discover he was a truly valuable asset in the renovation of my 1947 house.

I purchased the house with plans of renovating the kitchen and bathroom. As the demolition started we soon discovered many problems of rot and a carpenter ant infestation that was really horrific.

Mark is great at thinking on his feet, meeting problems head on and solving them. After we finished demo and exterminated the ant problem we were left with a framed shell of a house. Basically we ended up rebuilding the house from the foundation up.

The project was started in August 2011 and completed by November 2011, which to me seemed like a miracle! All through this Mark and crew worked long hours and tirelessly to get me in my home.

I cannot say enough about his work ethics and his fine craftsmanship. From framing to finishing it is fabulous! He works with you and listens to find what your taste in design is and had many good ideas. I learned that Mark is also cabinet maker as one of his many skills. It was quite evident in the finishing of my house. The window frames, baseboards, crown moldings, cabinetry and tiling work are quite tastefully beautiful.

In my opinion if you can get him for your project you will not be disappointed! I have no reservations of recommending him for any building needs you may have.

Sincerely,

A handwritten signature in black ink that reads "Janice G. Lloyd". The signature is written in a cursive, flowing style.
